STATEMENT OF WORK FOR WELDING AND MACHINING REPAIR OF
J69-T-25A TURBOJET ENGINE PARTS, T.O. 2J-J69-73

Requisition: 4029-3594

PLACE OF PERFORMANCE: Contractor Facility

1. BACKGROUND: NAVSEA Keyport requires a contractor to provide repair services on the J69 TurboJet Engine Parts. The contractor must be welder-certified for the specific materials (magnesium, stainless steel and inconel) involved in these repairs, while facilitating fluorescent penetrant inspections, and machining operations associated with the repair processes. The parts must meet the requirements of the Technical Manual T.O. 2J-J69-73. Relative portions of the T.O. manual will be made available upon request.

2. SCOPE:

2.1 Weld repairs on the Compressor Housing and Accessory Case magnesium parts (base metal AZ92A and AMS 4434) will be performed per the T.O. as needed. Parts will be cleaned and inspected and the areas to be repaired will be marked at NAVSEA Keyport prior to the contractor receiving the parts. Fluorescent penetrant inspection and machining will be performed by the contractor per the T.O. to complete the repair. The necessary repairs will vary from part to part.

2.2 Weld repairs on the Turbine Inlet Nozzle, fabricated from stainless steel AMS 5512 & 5537 and inconel AMS 5599 will be performed per the T.O. as needed. Parts will be cleaned and inspected and the areas to be repaired will be marked at NAVSEA Keyport prior to the contractor receiving the parts. Fluorescent penetrant inspection and machining will be performed by the contractor per the T.O. to complete the repair. The necessary repairs will vary from part to part and could involve other base material types.

3. REQUIREMENTS:

3.1 Task A: Provide documentation demonstrating contractor is certified in welding the specified materials related to the repair of these components per AMS-STD-1595 or industry equivalent. Before contract award the contractor shall be certified to the specified materials per AMS-STD-1595, "Qualification of Aircraft, Missile & Aerospace Fusion Welders" or industry equivalent such as AWS B2.1. After review of this documentation, the Government will approve the contractor for specified repair processes.

3.2 Task B: Perform necessary repair on magnesium parts per Technical Manual T.O. 2J-J69-73. This includes weld preparation, welding, machining, and non-destructive inspection (NDI) (fluorescent penetrant inspection) using the criteria listed on pages 5-2 through 5-4 of the T.O. as required for the individual component.

3.2.1 T.O. 2J-J69-73 pages needed for specified repairs (available upon request):

| <u>Description:</u> | <u>Pages:</u> |
|----------------------------------|----------------|
| Fluorescent Penetrant Inspection | 5-2 to 5-4 |
| Inspection and Repair Table | 5-11 to 5-17 |
| Accessory Case Repair | 5-43 to 5-54 |
| Compressor Housing Repair | 5-74 to 5-86 |
| Turbine Inlet Nozzle | 5-117 to 5-132 |

3.2.2 Typical repair sequencing for the Compressor Housing by contractor:

1. Weld preparation (cleaning, preheating, etc.)
2. Weld repair and stress relieve
3. NDI (fluorescent penetrant inspection)
4. Machine
5. NDI (fluorescent penetrant inspection)
6. Cleaning of components to remove penetrant materials
7. Final inspection (includes dimensional per T.O.)

3.3 Task C: Perform the specified repair on Turbine Inlet Nozzle parts per Technical Manual T.O. 2J-J69-73. A typical repair is vane replacement involving vane removal, welding in new vane (vane provided by government), weld cleanup, and non-destructive inspection (NDI) (fluorescent penetrant inspection) using the criteria listed on pages 5-2 through 5-4 of the T.O. as required for the individual component.

3.2.3 Deliverable Product: Along with the repaired component, a processing document with signed certificate of conformance to all completed work including inspections.

4. GOVERNMENT-FURNISHED PROPERTY AND INFORMATION: Government Furnished Materials (GFM) will be provided to the contractor via transfer of material and documents. Government Furnished Property will be specified in individual delivery orders.

5. QUALITY ASSURANCE REQUIREMENTS: Acceptance criteria is detailed in the Technical Manual T.O. 2J-J69-73.

6. NOTES:

- 6.1 Travel Requirements: NAVSEA Keyport and Contractor travel may be required. Due to the timeliness of the project and to solve potential engineering problems that may cause work stoppages, the contractor needs to be located no greater than a two-hour trip (one-way) from Keyport.
- 6.2 This repair work will require communication between government and contractor personnel. Occasionally parts being repaired will develop additional defects due to the stress of welding. If, after the contractor has performed work, the part is deemed non-repairable, the contractor can bill for the work performed. Should a part be deemed non-repairable the contractor shall notify the contracting officer in writing of the basis for that determination and provide a detailed listing of hours expended. The final determination as to non-repairable status shall be made by the Government, and the contractor shall be notified in writing of that determination within three business days of his initial submission.
- 6.3 In addition, the contractor will be responsible to provide written reports via email of product status. This reporting will be required at intervals related to percent complete, for example 25, 50 and 75 percent or phases of repair, for example welding, machining, and NDI. Prior to exceeding either the hours or dollar amount specified on the delivery order the vendor shall notify the contracting officer in writing and shall not proceed in excess of the stated amounts without receipt of a modification to the delivery ordered signed by a contracting officer.

**** UNIFORM ALLOWANCE ****

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of \$3.35 per week (or \$.67 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

**** NOTES APPLYING TO THIS WAGE DETERMINATION ****

Source of Occupational Title and Descriptions:

The duties of employees under job titles listed are those described in the "Service Contract Act Directory of Occupations," Fourth Edition, January 1993, as amended by the Third Supplement, dated March 1997, unless otherwise indicated. This publication may be obtained from the Superintendent of Documents, at 202-783-3238, or by writing to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Copies of specific job descriptions may also be obtained from the appropriate contracting officer.

REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE {Standard Form 1444 (SF 1444)}

Conformance Process:

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination. Such conformed classes of employees shall be paid the monetary wages and furnished the fringe benefits as are determined. Such conforming process shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees. The conformed classification, wage rate, and/or fringe benefits shall be retroactive to the commencement date of the contract. {See Section 4.6 (C) (vi)} When multiple wage determinations are included in a contract, a separate SF 1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

- 1) When preparing the bid, the contractor identifies the need for a conformed occupation) and computes a proposed rate).
- 2) After contract award, the contractor prepares a written report listing in order proposed classification title), a Federal grade equivalency (FGE) for each proposed classification), job description), and rationale for proposed wage rate), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.
- 3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, for review. (See section 4.6(b)(2) of Regulations 29 CFR Part 4).
- 4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the request.
- 5) The contracting officer transmits the Wage and Hour decision to the contractor.
- 6) The contractor informs the affected employees.

Information required by the Regulations must be submitted on SF 1444 or bond paper. When preparing a conformance request, the "Service Contract Act Directory of Occupations" (the Directory) should be used to compare job definitions to insure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination.
